

HERE ARE SOME QUICK TIPS ON BEING A SUSTAINABLE CONSUMER

Reduce. Switch to reusable cloth/cotton bags. Cloth Bags are washable
TIP: Have a dedicated bag for meat products only.

Reuse. Any plastic bag can be reused. You can reuse the plastic bags over and over again. At the supermarket, mall or anywhere you shop.
TIP: Find a convenient place to hang your reusable bags, so that you do not forget to put the bags back in the trunk of your car ready for your next shopping trip.

Recycle. Eventually, plastic bags will become damaged and unuseable. They can then be processed into new plastic products. **Plastic bags do not go into your home recycling container.** Empty and clean plastic bags for recycling at most supermarkets, home improvement and other large retail stores.
