

Love birds and butterflies? Want to help our native bees?
The plants we choose to put around our homes and how we maintain them
can make a big difference in helping our native wildlife.
Learn best practices for a beautiful, healthy yard that supports birds, pollinators, and other wildlife.

Monarchs and other Pollinators' Backyard Habitat:

A How-To ***at the*** ***Audubon Senior Center*** ***(Oak & Oakland Avenue)***

Wednesday, April 19
7:00 p.m.

- * Essential elements to attract and sustain butterflies & other pollinators to your own backyard
- * Planting tips and design ideas for small and large garden spaces
- * Suggested plants and where to buy them
- * Information for other resources available

**The presentation will be followed by a question and answer session,
then,**

stop by our Audubon Library's lending table to borrow books or videos to watch at home.

Presentation by **Camden County Certified Gardeners**

Hosted by **Sustainable Audubon**
